## **CLINICAL EXPERIENCE**

- Please provide the **names and phone numbers of two people who know your clinical work**. If you have no clinical experience you may include the names and numbers for persons familiar with your graduate academic work, as well as the history and nature of your relationship with them. All references will be contacted by telephone.
- Please describe previous internships and other clinical experiences of all kinds, including work with the LGBT community, in social services, and/or work taking place in religious/spiritual settings. If conducting psychotherapy was involved in these settings, include details of how many hours of therapy you have conducted, the modality and theoretical orientation, the client population, and the number of hours of individual and group supervision or consultation. Please indicate direct face-to-face clinical experience.

## **GENERAL INFORMATION**

Please respond to each question on separate paper. With the exception of question number one, please limit your responses to one page.

1. Write a biographical statement addressing your interest in becoming a psychotherapist, as well as your current understanding of who you hope to become as a therapist. Include any aspects of your life which seem relevant to you.
2. The Pacific Center Clinic primarily serves the mental health needs of the LGBT community in the Bay Area. Please reflect on your motivation to work with this community, as well as any personal or professional experience you may have with the LGBT community.
3. The impact of culture and society on the development of the self is an important aspect of clinical thinking at the Pacific Center. Please reflect upon the impact of socio-cultural issues, focusing upon your own lived experiences of difference as it relates to your own development.
4. Talk about your personal experience with psychotherapy including what was helpful, what was not, and your understanding of why.
5. The clinical training program at the Pacific Center can be quite demanding on many levels—emotionally, intellectually, and personally, and requires a significant amount of time and energy (approximately 20 hours per week) without pay. How will you manage this and in what ways do you imagine its impact on your life?
